The summary - UCAS programme profile-

BANNER BOX:

The BSc (Hons) Economics programme is aimed to provide students with a clear understanding of the principles and practices of economics so that they are able to make informed choices based on the understanding of the financial and economic environment and of the key institutions within it. Students will also be introduced to the key analytical techniques and skills required to interpret economic and financial events. Students reading BSc (Hons) Economics will have the opportunity participate in variety of cutting edge modules that involve the use of Computer Adaptive Learning Technology, Econometric Software, Bloomberg Terminals and a variety of other databases and software.

ENTRY REQUIREMENTS

For admission, applicants normally need to have either:

- 240 Tariff points with at least two A2 passes or equivalent
- 24 points (pass) International Baccalaureate
- Pass in a recognised Access Course or International Foundation Programme

In addition to the above, we require GCSE Maths and English grade C or equivalents, unless competency is part of the qualification gained

We also welcome mature student applicants with relevant professional qualifications, and these will be dealt with on an individual basis and may require an interview. Students may be admitted through Accreditation of Experiential Learning (AEL) or Accreditation of Certificated Learning (ACL) processes, or through an approved articulation agreement.

In the case of applicants whose first language is not English, the University's English Language requirements as detailed on the website at time of application must be met – see <http://www.uel.ac.uk/international/application/english-language-requirements/>

In the case of applicants whose first language is not English, then an IELTS score of at least 5.5 *in all components* (or equivalent). International qualifications will be checked for appropriate matriculation to UK Higher Education undergraduate programmes.

At UEL we are committed to working together to build a learning community founded on equality of opportunity - a learning community which celebrates the rich diversity of our student and staff populations. Discriminatory behaviour has no place in our community and will not be tolerated. Within a spirit of respecting difference, our equality and diversity policies promise fair treatment and equality of opportunity for all. In pursuing this aim, we want people applying for a place at UEL to feel valued and know that the process and experience will be transparent and fair and no one will be refused access on the grounds of any protected characteristic stated in the Equality Act 2010.

ABOUT THE PROGRAMME

What is BSc (Hons) Economics?

All individuals and societies must organise themselves to meet their material needs: this is '*economic life*'. But economic life is changing. It is becoming more interconnected, more networked across countries and more 'globalised'. Rapid growth of economic life in China, India and Brazil has moved millions out of poverty. Across the world, increasingly large business corporations coordinate the networks of economic life, shaping the opportunities for smaller businesses, setting the pace of change, influencing local communities in many different countries. Globally interconnected banks and money markets finance these business operations, operating 24 hours a day, every day. 'Economic' issues and events nightly make the news: of a widening gap between the rich and the rest, of some business corporations being 'too big to fail', of bankrupt governments and personal debt, of sudden shifts in the 'markets', of changing prices and changing numbers of jobless people.

As economic life changes and new economic events happen, an *understanding* of these issues and events and why they happen has never been more important. This degree is designed to help you *make sense* of the world, *be more effective* in this world and through this, help you *find your place* in the world.

By studying 'Economics' at the University of East London, you build up the ideas, explanations, techniques and experiences to help you make sense of this world. Economics offers an understanding of how financial markets (and many other markets) work- and why they can fail to work. Economics seeks to understand how individuals make decisions in a changing, uncertain world. Economics analyses the motives, strategy, performance and relationships of different 'species' of business – from the very large to the very smallest. Economics provides an explanation of how national 'economies' work, how they are linked

together and how well they provide jobs and a better quality of life. Economics explains what governments can do to influence the operation of markets, businesses and economies. Economics can help you understand why even expert professional economists can disagree about the role of markets, businesses and government in economic life. Economics can help you decide where you stand on these issues. As you do so, you begin to understand more clearly what you can offer to the world.

As you study Economics, you develop your mind, especially your powers of analysis. You will more easily see the larger picture in which events happen. You will know how to interpret and measure economic events and test economic ideas. You will have a better grasp of why economic events happen. You will be more aware of the reasons why different economic groups have different interests and perspectives on these events.

Employers *value* Economics graduates with these developed powers of analysis. Employers, communities and the wider society needs people who can make intelligent judgements in a rapidly changing world. Across over 40 years of economics at the University of East London, our Economics graduates have successfully moved into careers in a wide range of different occupations.

BSc (Hons) Economics at UEL

The BSc (Hons) Economics programme is currently delivered at our iconic UEL campuses and is a comprehensive and rigorous academic programme that focuses on three core elements of study i.e. economic principles, finance and globalisation. All three elements form an integral part of the students' understanding of real world economics. There is a strong emphasis on quantitative methods at all three levels of the programme. Economics at UEL is distinctive in a number of ways:

First, this programme recognises the global context in which economic events occur and recognises the increased contestability of economic ideas within the economics discipline. The programme emphasises an integrated understanding of business behaviour with financial institutions and markets informed by a strong core of economic theory and policy analysis and a further core of institutional context and plural perspectives. The programme situates economic ideas in their institutional context (important in building students' capacity for intelligent judgement) and offers a plurality of theoretical perspectives on economic events (important for building students' awareness of their own values, so clarifying their personal sense of self and self direction, increasing study motivation and employability).

Second, the programme is offered by a dedicated and enthusiastic team of permanent and guest lecturers. They draw on their experience from a wide range of countries.

Third, our students come from a variety of ethnic backgrounds which enhances classroom discussion and interaction as they contribute their views and experiences from a wide range of countries and cultures.

Fourth, the programme is taught within easy reach of the City of London and Canary Wharf. Eligible students can, in their final year, choose modules studying within Canary Wharf itself, guided by a set of guest speakers in the areas of money, finance and banking.

Sixth, RDBS has a state-of-the art Bloomberg Trading Room with 18 Bloomberg terminals. Students studying on the BSc (Hons) Economics programme will have the opportunity to participate in an 'Investment Game' at level 6. The Investment Game has been designed by industry professionals with an aim to enable students to understand security valuation techniques and forecasting strategies in a portfolio management context.

Finally students are able to select to complete a placement year or study abroad as part of the BSc (Hons) Economics with Placement Year programme.

Programme structure

BSc (Hons) Economics is offered as a Single Honours award and is normally completed in three years of full-time study, students can opt to study abroad for a term or undertake a short internship. This programme can also be studied on a part-time mode.

BSc (Hons) Economics with Placement Year is offered as a Single Honours award and is normally completed in four years of full-time study. This programme can also be studied on a part time mode. On this programme students' skills in the workplace are developed on a placement of twelve months duration is available between Levels 5 and 6.

In line with all RDBS undergraduate degrees, students undertake a combination of 30 credit modules and 15 credit modules to complete their degree. A small number of modules are shared with other business degrees (e.g. Finance, Accounting, International Business, Business Management, Marketing) broadening the student experience and knowledge base by exposing students to new and alternative viewpoints in related fields of study.

There are three sets of core modules in each year: those that emphasise economics principles, those that emphasise finance and financial institutions and those that provide context with a particular emphasis on the global dimension to corporate activity. A wide range of optional modules are available in level 5 and 6 giving students the opportunity to tailor their programme according to their individual interests.

The programme incorporates a range of field trips, guest speakers and case studies that highlight the practical application of the theoretical concepts covered in class.

Learning environment

The programme is currently offered at our iconic UEL campuses where students can take advantage of our modern lecture theatres and seminar rooms, the contemporary and well-stocked library and wireless networking facilities. We will help students to maximise their potential and benefit from these powerful resources. Student learning is supported by our virtual learning environment which has the added benefit of improving your technology skills.

We will help where possible in assisting students to develop their academic and professional skills including researching, professional writing, team working and presentation techniques.

We also provide the opportunity to add an international dimension to the degree. Students can choose to study for one term in Europe, Asia or the Americas as part of their degree and gain first-hand experience in a foreign learning and work environment.

Assessment

A range of assessment methods will be used to evaluate students' learning and progress on the programme. The majority of assignments will be completed individually but some group work will also be undertaken to simulate the requirements of the work environment.

Assessment formats are generally a combination of individual coursework (including essays, presentations, tests, reports, case analyses, critical reviews of academic literature) and end of term examination.

Weightings of coursework and examinations vary from module to module, though within the University's assessment template.

Each module is assessed separately, and assessment requirements and marking criteria are communicated to students at the start of each module. Only second and final year marks count towards degree classification. The University of East London is required to ensure that research conducted by staff and students adhere to the principles of good research practice and recognised codes of ethical conduct. To ensure that RDBS is compliant with the relevant commitments under *The Concordat to Support Research Integrity* (Universities UK, 2012), and other University regulations pertaining to research ethics, it is imperative that any research to be conducted by students, where it involves the use of human subjects and data, is submitted for ethical review prior to commencement. To this end, it is the responsibility of the RDBS School Research Ethics Committee (SREC) to consider and approve applications for ethical approval for proposed research by undergraduate and taught postgraduate students (including professional doctorate programmes returned to HESA as taught) involving the use of human participants and/or sensitive personal data of any kind.

Students with disabilities and/or particular learning needs should discuss assessments with the Programme Leader to ensure they are able to fully engage with all assessment within the programme.

Work experience/placement opportunities

A key feature of the RDBS BSc (Hons) Economics programme is that we offer all students the opportunity to broaden and deepen their educational experience by taking advantage of one or more of the following:

- Undertaking an Internship with a carefully selected business partner in order to gain valuable work experience;
- Working with a small group of other students on an exciting Social Enterprise project and bringing it to fruition by travelling abroad on our unique Global Scholars Programme
-

For the BSc (Hons) Economics with Placement Year:

- Broadening your horizons and travelling overseas to study for a term with one of our International University partners and undertaking a six month internship;

Project work

In their final year of study, eligible students have the opportunity to undertake a research project under the supervision of a member of staff. This allows them to produce an extended piece of work that is based on independent research in the area that is of particular interest to the student. Students' eligibility for the project depends on staff evaluation of their second year performance.

Added value

The programme incorporates a distinctive skills curriculum that is specifically designed to develop students' skills for work and life and to improve their employment prospects after graduation.

To further enhance their attractiveness to future employers, students have the opportunity to be involved in a broadly economics-related short internship or mentoring scheme

Students will have the opportunity to enrol on the Global Scholars Programme and work with other students in our partner universities on a social enterprise project. This programme allows students to travel abroad to see how the project is implemented.

In the final year we offer students the opportunity to study modules at Canary Wharf itself, at the core of London's financial services industry. A range of invited expert guest speakers will each week cover current issues in economics, finance, money and banking.

In the final year of study all students on the programme will have the opportunity to learn how to trade stocks and shares using our Bloomberg facilities. These portfolio and investment management skills are highly sought after by potential employers.

Students will be able to choose from a wide range of optional modules offered in their second and third year of study (Level 5 & 6). These include topics such as Islamic banking and finance, political economy of crises, sustainability and innovation and leadership.

Students will discuss current issues in the UK economy and beyond with classmates from a wide a range of cultural backgrounds under the guidance of lecturers and tutors who have worked in various countries.

Our library is open 24 hours a day, 7 days a week during the term, allowing you to undertake your guided and independent research and reading when it is most suitable for you. We hold a wide range of Economics, Finance and Business journals that enable you to find relevant materials for your degree and beyond, thus supporting you in developing an extensive knowledge base. FT.com, ESDS, Data-stream and Bloomberg databases are also available to download financial and economic data and information. Many of the economics-related books are also available in electronic form to allow students easy access to lecture and seminar material.

Additionally for the BSc (Hons) Economics with Placement Year;

- Have the option to gain valuable work experience by undertaking a placement between levels 5 and 6 with a carefully selected RDBS Business Partner.

- Have an option of studying with an accredited RDBS International University Partner (Study Abroad) for a term.

IS THIS THE PROGRAMME FOR ME?

If you are interested in

- How economic ideas can be used to understand individual economic behaviour, business behaviour and performance, the operation of markets and national economies
- How financial markets and institutions affect individual opportunities, business performance and national economies
- How the globalisation of economic life affects individual opportunities, business behaviour, national economies and government policy
- How to recognise and interpret economic changes, how to measure them and how to predict and quantify future economic changes
- How economists test their ideas using quantitative techniques and empirical data
- Why economists disagree on policy issues

If you enjoy....

- Following economic, financial and political events in the news
- Acquiring skills, identifying problems and finding solutions for them
- Understanding theories and applying them to real-world problems or issues

If you want....

- To develop a wide range of important employment-related skills
- To understand the reasons why economic life and society is changing
- To make intelligent assessments of the operation of businesses, markets, economies and their interactions
- To be able to make informed judgements about future actions in a personal, business-related or public policy context
- To understand why the interests and views of important economic decision makers in society can be different

Your future career

The Economics programme is designed to support future careers in any sector. Economics graduates have moved into a wide range of careers including occupations in private business, not-for-profit private organisations, the financial sector and the public sector (including the civil service and teaching at primary, secondary and higher levels).

How we support you

Academic Support

- A personal tutor will be allocated to you for the duration of your degree who can advise you on academic and personal development matters.
- Module leaders and seminar tutors provide feedback on your progress in each module to assist with your learning.

- The programme leader can help if you have any programme-related issues.
- The subject librarian is available for any queries regarding the use of library resources for your research and can advise you on locating sources for relevant materials.
- The student representatives who study Economics in the same year as you can raise any concerns regarding the programme or individual modules with the teaching team on behalf of your student cohort.

Administrative Support

- The staff at the Royal Docks Business School Helpdesk will be able to answer the queries you may have about the operation of your degree.
- The Student Services team can assist with financial matters, health and wellbeing as well as offering support for students with a disability.

Support for Employability

- The Royal Docks Business School offers a range of opportunities to engage with industry through its lecture series.
- The Royal Docks Business School offers a mentoring scheme where you can benefit from the experience of a personal business mentor.
- Our employability team will recommend opportunities for work placements, assist with writing your CV and advise you on your interview skills and technique

On enrolment, you will be provided with introductory materials on the use of the UEL Virtual Learning Environment (VLE) and UEL Direct.

During your studies, you will be supported by academic, support and technical staff from your academic school.

Bonus factors

The UEL Campuses

The UEL campuses offer a large range of new student facilities including modern lecture theatres, IT labs and library.

Canary Wharf Study

Given your academic performance in your second year, we can offer you the opportunity to study a module at Canary Wharf itself, at the core of London's financial services industry. A range of invited expert guest speakers will cover today's central issues in finance, money and banking.

Investment Game

UEL is amongst the handful of universities in the UK that have on campus Bloomberg terminals and trading facilities. The aim is encourage students to navigate the system and

become expert portfolio managers with core knowledge of the techniques in trading in capital and financial markets.

Global Scholars

Students will have the opportunity to work on a social enterprise project with one of UEL's international partner institutions. The final stage of the project students will travel to the partner institution to see how the project comes to fruition. Students may compete for a place on the RDBS Global Scholars Programme. The RDBS Global Scholars Programme gives students the opportunity to undertake a 15 credit bearing enterprise project with overseas partners under the direct supervision of a dedicated member of academic staff. The RDBS Global Scholars Programme is taken during Term 3 at Level 5.

Programme aims and learning outcomes

What is this programme designed to achieve?

This programme is designed to give you the opportunity to:

- develop an understanding of the principles of economics and their application
- acquire a firm foundation of knowledge about the workings of economic systems
- apply appropriate tools of analysis to tackle issues and problems of economic policy
- develop, through the study of economics, a range of generic and analytical skills that will be of value in employment
- acquire the knowledge and skill base from which you can proceed to further studies in economics, related areas or in multidisciplinary areas
- evaluate the economic dimension of wider social, political and environmental issues.

What will you learn?

Knowledge

You will be able to:

- demonstrate understanding of the assumptions, implications and limitations of core economic theory
- apply economic theory to the analysis of corporate and government organisations and economies

Thinking skills

You will be able to:

- critically evaluate the relevance of diverse theories and concepts
- apply these theories and concepts to various topics
- discuss, evaluate and analyse government policies and assess the performance of the UK, other national economies and the global economy
- discuss the relationship between economic theory, the broader institutional context, and government policies

Subject-Based Practical skills

You will be able to:

- locate and interpret sources of information that will assist you in identifying and solving economic problems
- use quantitative skills in the identification and analysis of economic problems
- use industry-standard (e.g. Excel) software to solve problems
- apply the analytical techniques of economics to a range of issues and contexts

Skills for Life and Work (General skills)

You will be able to:

- identify gaps in your own knowledge and undertake steps to fill these
- identify, interpret and synthesise a range of theoretical and empirical data to develop a sophisticated and reasoned argument,
- undertake independent research and make practical recommendations based on the evaluation of different data sources,
- communicate effectively in written and oral form to specialist and non-specialist audiences.

The programme structure

Introduction

All programmes are credit-rated to help you to understand the amount and level of study that is needed.

One credit is equal to 10 hours of directed study time (this includes everything you do e.g. lecture, seminar and private study).

Credits are assigned to one of 5 levels:

3 equivalent in standard to GCE 'A' level and is intended to prepare students for year one of an undergraduate degree programme

4 equivalent in standard to the first year of a full-time undergraduate degree programme

5 equivalent in standard to the second year of a full-time undergraduate degree programme

6 equivalent in standard to the third year of a full-time undergraduate degree programme

7 equivalent in standard to a Masters degree

Credit rating

The overall credit-rating of this programme is 360 credits.

Typical duration

The expected duration of this programme is 3 years full-time or 6 years part-time. The expected duration of this programme with Placement Year is 4 years when attended in full-time mode.

It is possible to move from full-time to part-time study and vice-versa to accommodate any external factors such as financial constraints or domestic commitments. Many of our students make use of this flexibility and this may impact on the overall duration of their study period. A student cannot normally continue study on a programme after 4 years of study in full time mode unless exceptional circumstances apply and extenuation has been granted. The limit for completion of a programme in part time mode is 8 years from first enrolment.

How the teaching year is divided

The teaching year begins in September and ends in June

A typical student, in full-time attendance mode of study, will register for 120 credits in an academic year. A student in a part-time mode of study may register for up to 90 credits in any academic year.

What you will study when

A student registered in a full-time attendance mode will take 120 credits per year. Typically this will be comprised of four 30 credit modules. The exact number may differ if the programme is comprised of 15, 45 or 60 credits modules. An honours degree student will complete modules totalling 120 credits at level four, modules totalling 120 credits at level five and modules totalling 120 credits at level six.

Level	Module Code	Module Title	Distance learning Y/N	Credits	Status*
4	FN4001	Introduction to Economics	N	30	Core
4	SG4001	The Business & Financial Environment	N	30	Core

**Please Note – A core module for a programme is a module which a student must have passed (i.e. been awarded credit) in order to achieve the relevant named award. An optional module for a programme is a module selected from a range of modules available on the programme.*

*** These modules are part of the BSc (Hons) Economics with Placement Year programme.*

Requirements for gaining an award

In order to gain an Honours degree you will need to obtain 360 credits including:

- A minimum of 120 credits at level four or higher
- A minimum of 120 credits at level five or higher
- A minimum of 120 credits at level six or higher

In order to gain an Honours degree with Placement Year you will need to obtain 360 credits including;

- A minimum of 120 credits at level four or higher
- A minimum of 120 credits at level five or higher
- A minimum of 120 credits at level P or higher.
- A minimum of 120 credits at level six or higher

In order to gain an Ordinary degree you will need to obtain a minimum of 300 credits including:

- A minimum of 120 credits at level four or higher
- A minimum of 120 credits at level five or higher
- A minimum of 60 credits at level six or higher

In order to gain a Diploma of Higher Education you will need to obtain at least 240 credits including a minimum of 120 credits at level four or higher and 120 credits at level five or higher

In order to gain a Certificate of Higher Education you will need to obtain 120 credits at level four or higher

Degree Classification

Where a student is eligible for an Honours degree by passing a valid combination of module to comprise an award and has gained the minimum of 240 UEL credits at level 5 or level 6 on the current enrolment for the programme, including a minimum of 120 UEL credits at level 6, the award classification is determined by calculating;

The arithmetic mean of the best 90 credits at level 6	x	0.8	+	The arithmetic mean of the next best 90 credits at levels 5 and/or 6	x	0.2
---	---	-----	---	--	---	-----

and applying the mark obtained as a percentage, with all decimal points rounded up to the nearest whole number, to the following classification

70% - 100%	First Class Honours
------------	---------------------

60% - 69%	Second Class Honours, First Division
50% - 59%	Second Class Honours, Second Division
40% - 49%	Third Class Honours
0% - 39%	Not passed

Teaching, learning and assessment

Teaching and learning

Knowledge and understanding is developed through

- Directed and general reading in the Subject Area
- Participation in lectures, tutorials, seminars, workshops
- Primary research using interviewing, surveys or case study approaches and the use of information technology to undertake secondary research

Thinking' skills are developed through

- preparing tasks set for tutorials, seminars and workshops
- satisfactorily completing the continuous assessment process including essays, presentations, multiple choice assessment
- Preparation for examinations or major assignments such as the Project

Practical skills are developed through

- The use of Information Technology
- The preparation of presentations on selected topics
- The completion of group based or individual assignments

General skills are developed through

- Managing time so that assignment deadlines are met, whether working in groups or individually.
- Presenting ideas or arguments in a clearly structured manner
- Being able to produce clearly argued solutions when problem solving

Assessment

As outlined above the Economics degree is multi-disciplinary. Therefore it is appropriate that we use many different assessment techniques as different disciplines use different forms of assessment.

It is the policy of the Royal Docks Business School to include information on assessment criteria in Module handbooks.

Therefore during your studies and dependant upon the Module you choose, you will be assessed by many different techniques which may include, either conducted either individually or in groups

- essays
- reports
- individual and/or group presentations, (using PowerPoint or a short video)
- preparation of a case study
- analysis of an existing case study
- modelling using Excel, Access presented using Powerpoint and Publisher
- time constrained tests
- open book tests
- data base searches
- critical self assessment analysis
- role play
- preparation of a portfolio
- preparation of a seminar paper
- multiple choice tests
- A final year project
- closed book examinations
- examinations based upon previously distributed case studies

As appropriate knowledge, thinking skills, practical skills and skills for life and work will be assessed as follows:

Knowledge and understanding is assessed by

- evidence of comprehensive reading in the Module being assessed
- ability to explain, identify, describe, discuss, draw upon (as appropriate) the ideas in the Module in the context of the piece of assessment for the Module

'Thinking' skills are assessed by

- the ability to compare, examine, contrast, question, debate, distinguish between (as appropriate) the ideas in the Module and how they are relevant to the piece of assessment for the Module.
- the ability to develop, elaborate, redefine, propose alternatives, re-conceptualise, integrate, establish new connections between, (as appropriate) the ideas in the Module in response to the assessment for the Module
- the ability to assess, judge, appraise, criticise (as appropriate) the ideas in the Module in addressing the Module's assessment.

Practical skills are assessed by

- the ability to prepare an assignment using appropriate resources, including Information Technology, to address the issue or question in the assessment
- evidence of logical planning and management of time in preparing the assessment.

General skills are assessed by

- evidence of team or group working
- the ability to work in time constrained environments
- the use of appropriate problem solving skills.

How we assure the quality of this programme

Before this programme started

Before this programme started, the following was checked:

- There would be enough qualified staff to teach the programme;
- Adequate resources would be in place;
- The overall aims and objectives were appropriate;
- The content of the programme met national benchmark requirements;
- The programme met any professional/statutory body requirements;
- The proposal met other internal quality criteria covering a range of issues such as admissions policy, teaching, learning and assessment strategy and student support mechanisms.

This is done through a process of programme approval which involves consulting academic experts including some subject specialists from other institutions.

How we monitor the quality of this programme

The quality of this programme is monitored each year through evaluating:

- External examiner reports (considering quality and standards);
- Statistical information (considering issues such as the pass rate);
- Student feedback.

Drawing on this and other information, programme teams undertake the annual Review and Enhancement Process which is co-ordinated at School level and includes student participation. The process is monitored by the Quality and Standards Committee.

Once every six years an in-depth review of the whole field is undertaken by a panel that includes at least two external subject specialists. The panel considers documents, looks at student work, speaks to current and former students and speaks to staff before drawing its conclusions. The result is a report highlighting good practice and identifying areas where action is needed.

The role of the programme committee

This programme has a programme committee comprising all relevant teaching staff, student representatives and others who make a contribution towards the effective operation of the programme (e.g. library/technician staff). The committee has responsibilities for the quality of the programme. It provides input into the operation of the Review and Enhancement Process and proposes changes to improve quality. The programme committee plays a critical role in the quality assurance procedures.

The role of external examiners

The standard of this programme is monitored by at least one external examiner. External examiners have two primary responsibilities:

- To ensure the standard of the programme;
- To ensure that justice is done to individual students.

External examiners fulfil these responsibilities in a variety of ways including:

- Approving exam papers/assignments;
- Attending assessment boards;
- Reviewing samples of student work and moderating marks;
- Ensuring that regulations are followed;
- Providing feedback through an annual report that enables us to make improvements for the future.

The external examiner reports for this programme are located on the UEL virtual learning environment (Moodle) on the school notice board under the section entitled 'External Examiner Reports & Responses'. You can also view a list of the external examiners for the UEL School by clicking on the link below.

<http://www.uel.ac.uk/qa/externalexaminersystem/currentexaminers/>

Listening to the views of students

The following methods for gaining student feedback are used on this programme:

The following methods for gaining student feedback are used on this programme:

- Module evaluations
- Student representation on programme committees (meeting each term)

Students are notified of the action taken through:

- circulating the minutes of the programme committee
- Student/Staff consultative meeting

providing details on the programme noticeboard

Listening to the views of others

The following methods are used for gaining the views of other interested parties:

- Royal Docks Business School Advisory Board
- As appropriate, being informed by relevant Professional bodies
- Placements Officer

Where you can find further information

Further information about this programme is available from:

- The UEL web site (<http://www.uel.ac.uk>)
- The programme handbook (on internal Moodle intranet)
- Module study guides (on internal Moodle intranet)

- UEL Manual of General Regulations (<http://www.uel.ac.uk/qa/policies/manual/>)
- UEL Quality Manual (<http://www.uel.ac.uk/qa/policies/qualitymanual/>)
- Royal Docks Business School web pages (<http://www.uel.ac.uk/business/index.htm>)
- Equal Opportunities(<http://www.uel.ac.uk/equality/index.htm>)
